Naveen Annepaka

Aspiring Software Engineer

Seeking to leverage my expertise in Python, SQL, and big data tools to drive data-driven decision-making and contribute to innovative projects. Passionate about uncovering actionable insights from complex datasets and eager to apply my skills to solve real-world business challenges in a dynamic data science role.

EDUCATION

Graduation
Manav rachna international institute of research Of research and studies
Year of Passing-2025

Senior Secondary (12th Std)
Sri Chaitanya collage
Year of Passing-2021 | 98%

Secondary (10th Std)
New Era school
Year of Passing-2019 | CGPA-9.2

INTERNSHIPS

Data Science Intern
Bharat
06/2023 - 07/2023,

- The main objective of the internship is to develop data science projects using deep learning and machine learning techniques using python.

Data Science Intern
Encryptix
06/2024 - 07/2024

- The main objective of the internship to develop a data science projects like sales prediction, iris data classification, etc using various ml techniques.

TRAINING & CERTIFICATIONS

Microsoft Certification

08/2022 - 12/2024

Azure Data Engineer Associate.
Security, Compilance and Identity Fundamentals. Azure AI Fundamentals.
Azure Fundamentals.

LinkedIn Certification

Discrete mathematics

Cisco Certification

Introduction to data science

SKILLS

Programming Languages: Python, C.

Libraries: NumPy, Pandas, Matplotlib, PyTorch, TensorFlow.

Databases: MySQL, Oracle Database.

PROJECTS

Titanic Survival Classification

- Developed a data science project using various deep learning techniques to predict the how many people survived during titanic incident.

Iris Flower Classification

- Developed a model that can easily classify iris flowers into different species based on their petal measurements using various deep learning techniques.

Pneumonia Detection Using Deep Learning

- Pneumonia detection using machine learning with the help of Data Science we managed to find the loop points in the project

Road Accident Reporting System

- Developed a prototype that is built with IOT which detects the accident and report to the given Emergency contacts.

AWARDS/ACHIEVEMENTS

Accepted research paper in ISCS Conference.
Certificate of appreciation in coding combat and web weaving.
Certificate of appreciation in basketbal tournaments(BitsPilani,North zone).

LANGUAGES

English, Hindi, German.

INTERESTS

Baketball, listening to music.
